

Clúster Aeroespacial de Baja California, AC

Membership

The Aerospace Cluster of Baja California is a non-profit organization whose mission is to provide specialized and professional services to the aerospace industry in Mexico and abroad, aimed at the development of the aerospace human capital, manufacturing, regulatory, certification, supply chain and innovation capabilities with global standards.

The vision of the Aerospace Cluster of Baja California is to maintain its leading efforts with a bi-national approach in our region to all companies participating in seven business segments: a. Commercial Aviation, b. Defense, c. Space, d. Drones, e. Aeronautical Maintenance and Repair, f. Cargo Logistics and g. Extreme Aero Sports.

Benefits when joining:

- Become part of a group of professionals and experts in several aerospace fields, along with recognized opinion leaders in our industry
- Lobby in favor of the interests of the aerospace industry before governmental institutions, private organizations and educational institutions
- Promote your services and existing capabilities through our media platforms and electronic means to brand your company
- Receive potential business leads and/or specific enquiries to sell your products and services
- Participate in federal, state and/or municipal government public funding related to our sector
- Welcome to all networking events and business forums, airshows or special invitations that the cluster receives and shares to its member companies
- Enjoy a discount rate with Aeromexico airline tickets and several hotel accommodations in Baja California
- Enjoy a preferential rate or discount on the workshops, courses or training programs offered by experts
- Be informed of the relevant news, trends, and value information in the aerospace sector
- Participate in existing Committees or create a non-existent one
- Develop a long-term camaraderie with other active aerospace players
- Advertise at preferential rates in our website www.bajaaerospace.org
